

APPRENTICE'S DAILY DIARY

Name: Sunitha Sivakumaran

Apprentic's Private Address: No 116, Music college road, Nachchimundi,
Batticaloa.

Contact Phone Number: 076-3121801

Category of Apprenticeship: Internship- software Engineering

Field of Training: Software Engineering

Registration Number given by the University: SC/2022/12901

Overall Period of Training: 04 moths From: 25/04/2020 To: 30/08/2026

NOVATION

Name and Address of Establishment	Period		Signature of Officer In Charge	Designation
	From	To		
Department of Social Welfare, District secretary office, Galle, Sri Lanka.	25/05/2024	30/08/2024		ජයතිලක පී. ලියනගේ සහකාර අධ්‍යක්ෂ (සමාජ සුභසාධන) දකුණු පළාත් සමාජ සුභසාධන, පරිවර්තන හා සුභසාධන සේවා දෙපාර්තමේන්තුව 5 වන මහල, දිස්ත්‍රික් අධිකාරී කාර්යාල සංකීර්ණය, පුදුමා
Dept. of Computer Science, University of Ruhuna.	27/09/2024	24/05/2026		Lecturer - prob.

Name: S. Sunitha.	Week Ending... 2026/05/03.
-------------------	----------------------------

Day	Brief Description of Work Carried Out	
Monday (04/27)	Preview the online and physical session schedules.	
Tuesday (04/28)	Participated in online react session. studied about react fundamentals, hooks, and component base architecture and learned about how create react project.	
Wednesday (04/29)	Participated in SQL and HTML session physically and learned database concept and HTML and CSS basic.	
Thursday (04/30)	Studied and review SQL and HTML and did some exercises relevant to the HTML and SQL.	
Friday (05/01)	studied the delimiter relevant to the SQL and did some practices to improve my knowledge.	
Saturday (05/02)	quickly reviewed HTML and CSS concept which we learned in the first year.	
Sunday (05/03)	Downloaded xampp server and studied the basic logic relevant to the php.	

Problems Encountered and Solutions Found
Problem - forgot some sql and HTML basic concept Solution - quickly reviewed previous year lecture notes and watched several videos to improve knowledge.

Monthly Progress Report

(This has to be approved and signed by the Placement Manager at the end of every month)

Name: S. Sunitha	Date	Progress Report No. 01
Reg. No: SC/2022/12901	04/09/2026	
Week	Brief Description of Work Carried Out	
2026/09/27 - 2026/10/03	Participated in React, SQL and HTML session and reviewed previous lec notes and do self study	

Problems Encountered and Solutions Found
Problem: forgot about some SQL and HTML basic concept. Solution: quickly reviewed previous year lecture notes and watched several videos to improve knowledge.

Date

Name: S. Sunitha	Week Ending... 2026/05/10
------------------	---------------------------

Day	Brief Description of Work Carried Out	
Monday (05/04)	Participated online php session learned php syntax variables and functions.	
Tuesday (05/05)	Participated in the javascript session physically and participated with online php session.	
Wednesday (05/06)	Implemented php practical project and participated in mysql examination.	
Thursday (05/07)	Continued php practical practical project and connect to database by using XAMPP server.	
Friday (05/08)	Participated in the online AI for software engineering session and learned about how we use AI tools for project.	
Saturday (05/09)	Studied the notebook LLM Tool and improved knowledge	
Sunday (05/10)	Created small cv filtering system using AI tools and AI keys.	

Problems Encountered and Solutions Found
Problem: Had a limited knowledge about AI tools and how apply that tools for our project. Solution: Participated in AI session via zoom and followed some youtube videos and did a small project using AI.

Name: S. Sundha

Week Ending... 2026/05/17

Day	Brief Description of Work Carried Out	
Monday (05/11)	Participated in the online design session and learned UI/UX design principles and wireframes.	
Tuesday (05/12)	Participated in the laravel session. Learned and installed composer and studied MVC architecture.	
Wednesday (05/13)	Participated in the laravel session and learned about what is migration and authentication concepts.	
Thursday (05/14)	Created basic laravel project and implemented basic CRUD operation with MVC architecture.	
Friday (05/15)	Learned about how to apply session token to a laravel project.	
Saturday (05/16)	Learned about how to implement role based login system with laravel.	
Sunday (05/17)	Quickly review php concepts and logic again.	

Problems Encountered and Solutions Found

Problem: I never used laravel framework before

Solution: Participation in laravel session and followed youtube laravel session series.

Name: S. Sunitha	Week Ending 2024/05/29
------------------	------------------------

Day	Brief Description of Work Carried Out	
Monday (05/13)	learned about how connect react frontend and laravel backend together.	
Tuesday (05/14)	Participated in the online react session learned about state management and advance react concepts.	
Wednesday (05/20)	Participated in the online software requirement specification (SPS) session.	
Thursday (05/21)	watched some youtubers videos relevant to the SPS documentation and created small SPS document.	
Friday (05/22)	learned some SPS concepts and project learning techniques.	
Saturday (05/23)	watched laravel videos and gathered knowledge.	
Sunday (05/24)	learned advance laravel concepts via youtube videos.	

Problems Encountered and Solutions Found
Problem: Have a limited knowledge about SPS documentation. Solution: Participated in online SPS session and watched youtube videos relevant to the SPS documentation.

Monthly Progress Report

(This has to be approved and signed by the Placement Manager at the end of every month)

Name: S. Sunitha	Date 04/09/2026	Progress Report No....02.....
Reg. No: SC2022/12901		
Week	Brief Description of Work Carried Out	
2026/05/09 - 2026/05/10	Participated in PHP, JS and open AI for software Engineering session.	
2026/05/11 - 2026/05/17	Participated in figma and laravel sessions. As well as studied about laravel fundamental	
2026/05/18 - 2026/05/24	Participated in React and SRS sessions and studied about SRS documentation.	

Problems Encountered and Solutions Found
Problem: Limited knowledge about laravel framework, software requirement specification (SRS) documentation. Solution: Participated in training sessions, watched several youtube videos and self study to improve knowledge.

.....

Signature

04/09/2026
.....

Date

Name: Sunitha . S .	Week Ending 2026 May 25th - 2026 May 29th
---------------------	--

Day	Brief Description of Work Carried Out	Signature
Monday (25/05)	Requirement Gathering	
Tuesday (26/05)	Requirement Gathering	
Wednesday (27/05)	Analysed the gathered requirements and identified the main system users, their responsibilities, and the major workflow.	
Thursday (28/05)		
Friday (29/05)	Organized functional requirements for the identified roles and discussed the basic approval workflow.	
Saturday (30/05)		
Sunday (31/05)	Reviewed gathered requirements and identified areas requiring further clarification.	

Problems Encountered and Solutions Found
Problem: requirements gathered from project were not fully clear and needed to be organized according to different user roles. Solution: Reviewed the gathered requirements, identified the main users and their responsibilities and organized the functional requirements according to each role.

Monthly Progress Report

(This has to be approved and signed by the Placement Manager at the end of every month)

Name: <u>Sunitha Sivakumaran</u>	Date: <u>25th Aug 2026</u>	Progress Report No. <u>03</u>
Reg. No: <u>SC1202212901</u>		
Week	Brief Description of Work Carried Out	
Week 04:		
Week 05: (25 th /05/2026 to 31/05/2026)	Gathered and analysed Project requirements, user, roles and workflow.	2

Problems Encountered and Solutions Found
Problem: Understanding and organising the initial Wiggins requirements was challenging because the system involved multiple users with different responsibilities and workflows. Solution: Conducted requirements gathering, identified the major user roles and responsibilities, and organised the gathered information into functional requirements for the further system development.

 I am hereby certifying that the above mentioned details are true and correct as per the records maintained by me.

04th Sep 2026

Date

Name: S. Sunitha	Week Ending..... 2026 June 1 st - 2026 June 5 th
------------------	---

Day	Brief Description of Work Carried Out	Signature.
Monday (01/06)	SRS Document Making	
Tuesday (02/06)	Continued SRS development and prepared the functional requirements according to the required document structure.	
Wednesday (03/06)	Analysed the requirements and identified the database entities required for the different system module.	
Thursday (04/06)	Design the Database Structure.	
Friday (05/06)	Design the Database structure.	
Saturday (06/06)	Reviewed the database structure and adjusted table relationships according to system requirements	
Sunday (07/06)	Reviewed database normalisation concepts and evaluated the proposed database structure.	

Problems Encountered and Solutions Found
Problem : It was difficult to convert the system requirement into a proper database structure with suitable entities and relationship. Solution: Analysed the SRS requirements identified the necessary tables, attributes, keys and relationship and refined them through the ER Diagram and normalisation theorem.

Name: S. Sunitha	Week Ending...15 June 2026 - 21 June 2026
------------------	--

Day	Brief Description of Work Carried Out	
Monday (15/06)	Developed beneficiary approval and rejection functionality	AB
Tuesday (16/06)	Refined beneficiary eligibility rules and tested the module.	AB
Wednesday (17/06)	Reviewed goods request and payment workflow.	AB
Thursday (18/06)	Designed separate goods receipt and payment process.	AB
Friday (19/06)	Implemented payment and partial payment functionality	AB
Saturday (20/06)	Tested payments and outstanding balance calculations.	AB
Sunday (21/06)	Reviewed the procurement and payment workflow.	AB

Problems Encountered and Solutions Found
Problem: - The initial procurement design mixed goods receipt and supplier payment, which was unsuitable because payments could be made later or partially. Solution: Separated goods receipt from payment processing and introduced a payment module that supported partial payments and outstanding balances.

Name: S. Sunitha.	Week Ending 22 June 2026 to 28 June 2026.
-------------------	---

Day	Brief Description of Work Carried Out	
Monday (22/06)	Corrected the Aid Request → Good Request → Administ - rator → Store keeper workflow.	Ab
Tuesday (23/06)	Developed the subject officer dashboard and Goods request creation.	Ab
Wednesday (24/06)	Developed goods request submission and dispatch features.	Ab
Thursday (25/06)	Audited system logic and corrected distributor data.	Ab
Friday (26/06)	Fixed sidebar scrolling and removed unnecessary banners.	Ab
Saturday (27/06)	Tested the request to dispatch workflow.	Ab
Sunday (28/06)	Reviewed district and division data.	Ab

Problems Encountered and Solutions Found
Problem: Aid requests were incorrectly routed directly towards the store keeper instead of following the required approval process. Solution: Redesigned the workflow as Aid Request → Subject officer → Good request → Admin → Store keeper and tested complete flow.

Name: S. Sunitha

Week Ending 21st June 2026 -
5th July 2026

Day	Brief Description of Work Carried Out	
Monday (21/06)		
Tuesday (22/06)	Developed the vision camp module and approval workflow.	AB
Wednesday (23/07)	Developed the contact lens tracking with IDs, power and status.	AB
Thursday (02/07)	Developed contact lens ordering and stock checking	AB
Friday (03/07)	Integrated contact lens processing with Aid Request workflow.	AB
Saturday (04/07)	Tested the vision camp workflow.	AB
Sunday (05/07)	Tested contact lens ordering and stock functions	AB

Problems Encountered and Solutions Found

Problem: - Contact lenses required a different workflow because they are handled according to lens power and do not pass through normal central-store distribution.

Solution: Developed a separate contact lens process with power-based ordering, individual lens tracking, stock matching and company requests.

Monthly Progress Report

(This has to be approved and signed by the Placement Manager at the end of every month)

Name: <u>Sunthe Suckumarn</u>	Date <u>25th Aug 2026</u>	Progress Report No. <u>04</u>
Reg. No: <u>Sc12022112901</u>		
Week	Brief Description of Work Carried Out	
Week 01: (01/06/2026 - 07/06/2026)	Prepared the SRS and Designed the initial database structure and E-R Diagram	
Week 02: (08/06/2026 - 14/06/2026)	Developed the initial UI, Dashboard, pool management, and request form	
Week 03: (15th/06/2026 - 21/06/2026)	Developed beneficiary approval, eligibility, procurement, and payment functions	
Week 04: (22/06/2026 - 28/06/2026)	Improved the request, goods, dispatch, and distribution workflows	
Week 05: (29/06/2026 - 5/07/2026)	Developed and tested the vision map and contact lens modules	

Problems Encountered and Solutions Found
Problem: Translation the gathered requirements into complete system design was challenging because the database, UI, approval process, procurement and distribution workflow had to work together correctly. Solution: Developed the SRS and database structure first, then gradually implemented and reviewed the UI and workflows. Problem identified during development were corrected through testing and workflow restructuring.

 Sunthe S. Suckumarn
 (Student ID: 12022112901)
 School of Information Systems, Faculty of
 Engineering, University of
 Technology, Singapore

Date

Name: S. Sunitha.	Week Ending ^{6th} July 2026 - 10 th July 2026.
-------------------	--

Day	Brief Description of Work Carried Out	
Monday (06/07)	Updated system roles to social service officer and subject officer.	⁺ <u>AB</u>
Tuesday (07/07)	Improved Good request and Dispatch pages.	<u>AB</u>
Wednesday (08/07)	Updated receive items, central stock, and Payment status features.	<u>AB</u>
Thursday (09/07)	Enabled subject officers to access all sso pools.	<u>AB</u>
Friday (10/07)	Added vision camp beneficiary registration and validation.	⁺ <u>AB</u>
Saturday (11/07)	Tested role names across all user logins.	<u>AB</u>
Sunday (12/07)	Tested cross-district access and pool visibility.	<u>AB</u>

Problems Encountered and Solutions Found

Problem: Changes the user roles and access requirements caused inconsistencies in role names and subject officer access across the system.

Solution: updated the role names throughout the UI and modified subject officer access to support all required sso pools across district.

Name: S. Sunitha	Week Ending... 13th July 2026 - 17th July 2026
------------------	---

Day	Brief Description of Work Carried Out	
Monday (13/07)	Added contact lens stock receipt with power and quantity tracking.	AB
Tuesday (14/07)	Conducted logic audit of system pages and modules.	AB
Wednesday (15/07)	Prepared the WIDMS Elaborated Guide.	AB
Thursday (16/07)	Updated the guide with contact Lens stock processes.	AB
Friday (17/07)	Prepared the ER Diagram	AB
Saturday (18/07)	Reviewed ER Diagram relationship.	AB
Sunday (19/07)	Reviewed ER database normalisation concepts.	AB

Problems Encountered and Solutions Found
Problem:- Matching newly received contact lens stock manually with waiting beneficiaries could cause delays or mismatches. Solution:- Added power-based stock receipt functionality that checks received lens powers and matches them with waiting beneficiaries.

Name: S. Sunitha.

Week Ending 20th July 2026 -
24th July 2026

Day	Brief Description of Work Carried Out	
Monday (20/07)	Prepared system overview and AIZ distribution workflow diagram.	AB
Tuesday (21/07)	Prepared the system guide and permission matrix.	AB
Wednesday (22/07)	Cross-checked documentation with the UI prototype.	AB
Thursday (23/07)	Reviewed project deliverables and identified corrections.	AB
Friday (24/07)	Applied corrections to the UI and documentation.	AB
Saturday (25/07)	Tested complete workflows across all roles.	AB
Sunday (26/07)	Reviewed documentation and edge cases.	AB

Problems Encountered and Solutions Found

Problem: - Some terminology and workflow details were inconsistent between the UI prototype and project documentation.

Solution: - Cross-checked the UI, system guide and workflow diagrams, then corrected the documentation and terminology to match the implemented system.

Name: S-Sunitha	Week Ending..... 27 th July 2026 - 31 st July 2026
-----------------	---

Day	Brief Description of Work Carried Out	
Monday (27/07)	Conducted end-to-end testing and work flows.	AB
Tuesday (28/07)	Tested vision camp and contact lens function.	AB
Wednesday (29/07)		
Thursday (30/07)	Fixed UI issues and verified module status functions.	AB
Friday (31/07)	Reviewed contact lens order history and logging.	AB
Saturday (01/08)	Tested interactions between major system modules.	AB
Sunday (02/08)	studied internship report - writing structure.	AB

Problems Encountered and Solutions Found
Problem: Integration testing revealed edge cases in vision camp, procurement status transitions and contact lens history logging Solution: tested the modules together, corrected the identified edge cases and verified that status changes and history records worked correctly.

Monthly Progress Report

(This has to be approved and signed by the Placement Manager at the end of every month)

Name: <u>Sunitha Sankumaran</u>	Date	Progress Report No. <u>05</u>
Reg. No: <u>SC12022112701</u>	<u>24th Aug 2026</u>	
Week	Brief Description of Work Carried Out	
Week 01: (29/06/2026 - 05/07/2026)	Developed and tested the vision comp and contact lens modules.	2
Week 02: (06/07/2026 - 12/07/2026)	Updated system roles and improved Goods request Payment and vision comp fun	2
Week 03: (13/07/2026 - 19/07/2026)	Completed contact lens stock functionality and prepared project documentation and ER.	1
Week 04: (20/07/2026 - 26/07/2026)	Prepared workflow diagrams and documentation and completed system testing.	
Week 05: (27/07/2026 - 02/08/2026)	Completed integration testing, fixed issues and verified module integration.	

Problems Encountered and Solutions Found

Problem! - As the system approached its final stage, modification made during development created inconsistencies between some functions, UI elements and Project documentation.

Solution! - Performed complete system reviews and end-to-end testing, corrected remaining functional issues, updated the SRS and supporting documentation, and modified the required system functions based on feedback.

Date

04 Sep 2026

Name: S-Sunitha.

Week Ending 3rd Aug 2026 -
9th Aug 2026.

Day	Brief Description of Work Carried Out	
Monday (03/08)	Reviewed the UI prototype with responsible person and discussed find requirement.	<u>Ab</u>
Tuesday (04/08)	Implemented feedback and refined Aid request field.	<u>Ab</u>
Wednesday (05/08)	Verified contact lens power formats across modules.	<u>Ab</u>
Thursday (06/08)	Checked JavaScript functions and syntax.	<u>Ab</u>
Friday (07/08)	Reviewed all role dashboards and navigation.	<u>Ab</u>
Saturday (08/08)	Reviewed the SRS against the final UI.	<u>Ab</u>
Sunday (09/08)	Updated the SRS with final correction.	<u>Ab</u>

Problems Encountered and Solutions Found

Problem:- The SRS and some interface labels no longer fully represented the latest system requirement after several modifications.

Solution:- Reviewed the prototype with the responsible person, applied the feedback and updated the SRS, Aid request field and approval labels.

Name: S-Sunitha	Week Ending... 10th Aug 2026 - 16th Aug 2026
-----------------	---

Day	Brief Description of Work Carried Out	
Monday (10/08)	Reviewed major project deliverable and system workflow.	2
Tuesday (11/08)		
Wednesday (12/08)		
Thursday (13/08)		
Friday (14/08)	Proofread the internship reports and verified dates.	3
Saturday (15/08)	Finalised project documents and deliverable.	
Sunday (16/08)	Studied presentation techniques for the final presentation.	

Problems Encountered and Solutions Found
Problem: Maintaining consistency among several project deliverables became difficult as the system had changed during development. Solution: Reviewed the SRS, IER diagram, workflow diagram, system guide and activity records together and corrected inconsistency before finalising them.

Name: S. Sunitha	Week Ending.....17 th Aug 2026 - 23 rd Aug 2026
------------------	--

Day	Brief Description of Work Carried Out	
Monday (17/08)	Applied final UI adjustments.	<u>Ab</u>
Tuesday (18/08)		
Wednesday (19/08)		
Thursday (20/08)	Prepared final presentation ^g material.	<u>Ab</u>
Friday (21/08)	Presented the WIDMS prototype to the responsible person.	<u>Ab</u>
Saturday (22/08)	Reviewed presentation feedback.	<u>Ab</u>
Sunday (23/08)	Updated the final internship report.	<u>Ab</u>

Problems Encountered and Solutions Found
Problem: Final verification identified areas where the UI, terminology and documentation required further adjustment before presentation. Solution: Performed 'end-to-end' verification, corrected the remaining items and incorporated feedback received from the responsible person.

Name: S. Sunitha	Week Ending <u>24th Aug 2024</u> - <u>30th Aug 2024</u>
------------------	---

Day	Brief Description of Work Carried Out	
Monday (24/08)	Reviewed the overall WIDMS system and identified functions that required further modification and improvement.	3
Tuesday (25/08)	Modified the Aid request and goods request workflow to improve request processing and approval handling.	
Wednesday (26/08)		
Thursday (27/08)		
Friday (28/08)	Modified the contact lens module, including lens power handling and stock-related functions.	2
Saturday (29/08)	Tested and modified Aid req, Goods req, contact lens function and identified remaining issues.	
Sunday (30/08)	Fixed issues identified during testing and made further improvements to the UI and workflow.	

Problems Encountered and Solutions Found
Problem: Further testing showed that the Aid Request / Goods request workflow and contact lens functions still required some improvement. Solution: - Modified the identified functions, tested the changes, corrected remaining issues and reviewed the updated system.

Monthly Progress Report

(This has to be approved and signed by the Placement Manager at the end of every month)

Name: <u>Sunitha Sivakumaran</u>	Date: <u>25th Aug 2024</u>	Progress Report No. <u>04</u>
Reg. No: <u>SC12022112901</u>		
Week	Brief Description of Work Carried Out	
Week 01 to (27/07/2024 to 2/08/2024)	Completed integration testing, fixed issues, and verified module interaction	
Week 02 (03/08/2024 - 09/08/2024)	Reviewed Project Deliverable including UI, implemented improvements & verified system	
Week 03 (10/08/2024 - 16/08/2024)	Reviewed project deliverable and continued preparing the internship report and final document	
Week 04 (17/08/2024 - 23/08/2024)	Completed final UI improvements, presentation preparation, and report updates	
Week 05 (24/08/2024 - 31/08/2024)	Completed project handover and final project review while preparing the internship report.	

Problems Encountered and Solutions Found

Problem: Integrating specialised workflows such as vision lamp and contact lens management with the main WIDMS system created complexity in stock handling, beneficiary processing and role access.

Solution: Developed separate logic for specialised processing, introduced contact lens power-based tracking and stock matching, defined user permissions, and continuously tested interaction between modules.
